Sweetcode Lab

About us

Sweetcode Lab Inc. is a customer-focused design and software development boutique. Our reliable team of talents sets its focus on UI/UX design and software development, along with complete development support for startups, small and medium-sized businesses.

It's not only about the code or design. Our team will dive into the business logic of your product.

50+ Talents | **100+** Completed projects | **5+** Years in business

Sweetcode Lab

The value that we bring to our clients

Let design enforce your business. As a design and software development boutique, we can provide unique and creative ideas for your project, work on time, and do **proper estimation** because we know how to deliver specs for developers accurately. In our team, we have only **senior-level developers and designers**.

So you know that your code will be neat and transparent, and the design will be top-notch.

# Sweetcode Lab

Underlying the magic of our business

Our strong team works together in a friendly atmosphere, **shares their skills**, and does tasks with love and passion.

In our work, we use the latest (modern) technology. Developers using programming languages such as **NodeJS**, **JavaScript**, **React** and **React Native**.

As a result, all our resources are used to complete the high-quality work on time.

June

JPL Law

★★★★★

I highly recommend Sweetcode – they have a fantastic team. I had a small project for my business and their team gave me a lot of attention and assigned a passionate and energic project manager to the work. The project manager appreciated my feedback and was transparent about the billable hours throughout the process. I love the final product and I am so happy I went with a professional and experienced team.

Daniel Malinovski

Founder of Lendli

★★★★★

This company has been nothing short of amazing. They have a great design team and their developers have gone above and beyond our expectations. Our company has been using their services for 2 years now and we will continue to do so. They are cost–efficient and are timely with our projects. I highly recommend exploring their options.

## Sweetcode Lab

Why should you choose us?

♡ We treat every project as our own ❤️; that's why we pay maximum attention to small details that might not be a necessity but may be the difference between good and great.

📈 We are constantly working on automating our processes and keeping up to date with the latest trends in order to bring more value at less cost.

👍 We love what we do, and that's what makes everything work in the end.
