

LITHIUM

Your trusted IT Talent Solutions Partner
to scale your business

Lithium

Our distributed LATAM team

LOCATIONS

“Through the partnership with Lithium, our team was able to identify valuable Latin American talent which solidified the nearshore demands of our US Based clients. Their attention to detail and urgency with key stakeholders facilitated an experience that was in line with our American counterparts’ cultural expectations around timing and communicativeness.

We truly value the embodiment of Lithium which resonates with our company values and that is to maintain a sense of advocacy and proper representation of the contingent worker. The partnership with Lithium has grown into an alliance with the same mission- to increase awareness of the rich talent supply found in Latin America and transform lives along the way- it is an honor to be a part of this movement with them.”
