OUR GOALS AS A COMPANY

WE ARE DEDICATED TO

software development to provide a service that allows our clients to achieve their goals and boost their businesses with digital presence. We are a growing startup with more than 5 years in the market, with experience in mobile and web development.

OUR PHILOSOPHY

goes hand in hand with the satisfaction and excellence of the user interface. We are committed to deliver the highest quality in our services with a great team of developers that will adapt to all your needs.

WE SEEK TO

constantly improve and deliver quality work. For us, terms such as collaboration, training, and teamwork are core values.

WE ARE KNOWN FOR:

We are known for meeting the needs of our clients, working with trend-setting technologies to realize their vision and drive their business forward. We help design, develop and implement technology solutions, providing experience and expertise.

WEB DEVELOPMENT:

Our projects range from corporate websites to complex cloud-based systems. We are able to create a website from scratch, from planning, design, structure, integrations, hosting and more. We specialize in providing a personalized service tailored to the needs of our clients. We work with technologies such as Javascript, React.js, Node.js, PHP and Python; with Frameworks such as Laravel Angular.js, Vue.js, and Codeigniter. We create pages integrating CMS's like Wordpress.

WE ARE KNOWN FOR:

MOBILE APPS:

We are skilled at developing mobile apps of all types using hybrid technologies such as React Native, Ionic/angular, Ionic/react, and native development including IOs with Swift and Android. We create intuitive and easy to use apps that encourage engagement and interaction.

E-COMMERCE:

We use trend technologies for e-commerce such as Woocommerce, Prestashop, and Shopify, we can configure your store to integrate payment platforms, create and configure plugins for e-commerce, integration with other technologies for implementation in mobile applications.

"

Emanuel is first and foremost, a great person. He is a helpful leader, a team player and a person who is constantly learning. You would be hard pressed to find a harder worker who cares more about his work than Emanuel. He has been an invaluable part of our team and dozens of projects for demanding, high-touch clients for almost 2 years and has always delivered. Believe me when I tell you that you will be glad you hired Emanuel, I hope that someday we can work together again.

PROJECT DEVELOPMENT RESOURCES

We offer a wide range of talent, from junior to senior developers, in various domains, spanning web, mobile, front-end, back-end and full-stack application development. We understand that each level of experience comes with its unique strengths and limitations, and we ensure that our team composition aligns with your project requirements and budget constraints.
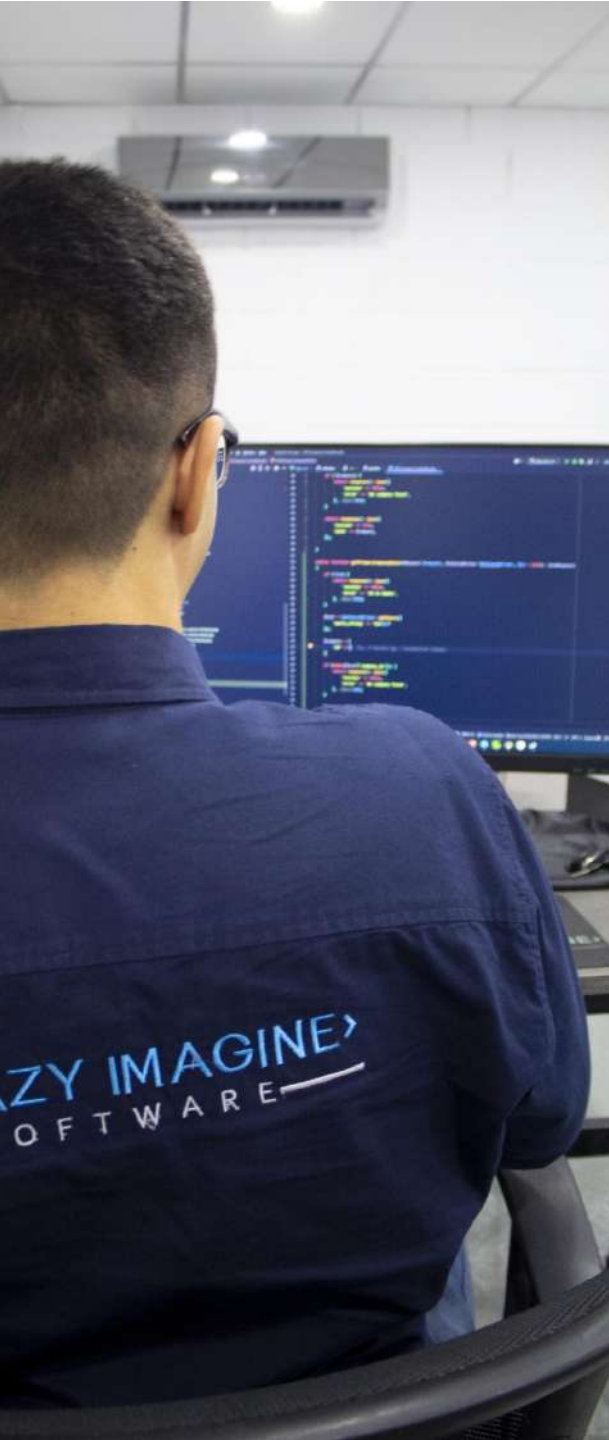

Junior Developers ($5 - $10 per hour)

Strengths	Limitations
Technical aptitude: Junior developers demonstrate a strong command of programming languages and fundamental concepts.	**Experience:** Due to their limited experience, they may take longer to solve complex problems or tackle advanced tasks.
Adaptability: They are eager to learn, adaptable and bring a fresh perspective to projects.	**Understanding the project:** They may need more guidance to align their work with the overall vision of the project.
Innovative thinking: Junior developers tend to be more open to innovative ideas and approaches.	

# PROJECT DEVELOPMENT RESOURCES

Mid-Level Developers ($10 - $18 per hour)

Strengths	Limitations
Balanced Skill Set: Mid-level developers possess a good balance between experience and innovative thinking.	**Skill Depth:** While they have some experience, they might lack the depth of expertise in specific advanced areas.
Problem-Solving: They have a more developed problem-solving ability and can work more independently	**Leadership Skills:** They may not be equipped for leadership roles or handling complex architecture without guidance.
Task Efficiency: Mid-level developers complete tasks with better speed and accuracy.	

PROJECT DEVELOPMENT RESOURCES

Senior Developers ($20+ per hour)

| Strengths	Limitations
Vast Experience: Senior developers bring extensive experience and a deep understanding of complex projects.	**Costlier Resource:** The expertise and experience they offer come at a higher hourly rate.
Mentoring Abilities: They can guide and mentor junior and mid-level developers, fostering team growth.	**Potentially Less Flexible:** They might have a more fixed approach to problem-solving due to their experience, which can sometimes hinder innovation.
Problem Resolution: Seniors excel in troubleshooting and solving intricate technical challenges efficiently.	

Ideas Beyond Your Imagination

Team work is the heart of everything we do
