Why Prishusoft?

OUR STORY

Established in 2011, Prishusoft, a company of humble beginnings, began with a handful of professionals who set out to bring reliable, cost effective solutions, to a growing technology world. Our clients value our technical expertise and business savvy, & this is why we have clients in the United States (USA), the United Kingdom (UK), Netherlands, Greece, Saudi Arabia, Australia and South Africa.

TECHNICAL DEPTH

We have an incredible team of technical experts, we work on so many different types of projects, that we always have someone in the company who can provide best solutions. Our development experience includes platforms Microsoft.net, Android, iOS, PHP, WordPress, DotNetNuke (DNN), IOT, Angular JS, Magento, Ionic, Node JS and Larvel.

MANAGEMENT TEAM

Mayur Panchal, our company founder, began with a simple premise. Create long term relationships with customers first, while supporting every single team member within the company. This is why today Prishusoft has a company with over 125 employees.

Excellence at Work

Prishusoft delivers excellence in everything we do. We complete projects timely and have an incredibly well trained and dynamic group of professionals who are continually asking what more they can do to provide you the best possible solutions.

Team spirit

We work hard, and we play hard! After a hard week's work of providing solutions for our customers, you can sometimes catch us at weekend picnics, bowling events and fun company office events where we have spend time together as part of our prishusoft family.

INDUSTRY

IT Services, Software Development and Global Outsourcing.
